

# VIBRO CLASSIFIER SEPARATOR

## ABOUT BMG

We have a full-bodied infrastructure that helps in modernize functioning of our production operations. Our infrastructure unit is appropriately segregated into manufacturing unit, quality testing unit, R&D division and sales section. All these units toil in dexterity to proffer the customers an unimpeachable range of machines, which is in concordance with the international standards apart from this, our manufacturing unit is operational with the latest machinery, these machine installed at our unit are moderately productive and ensure competence and quality of products.

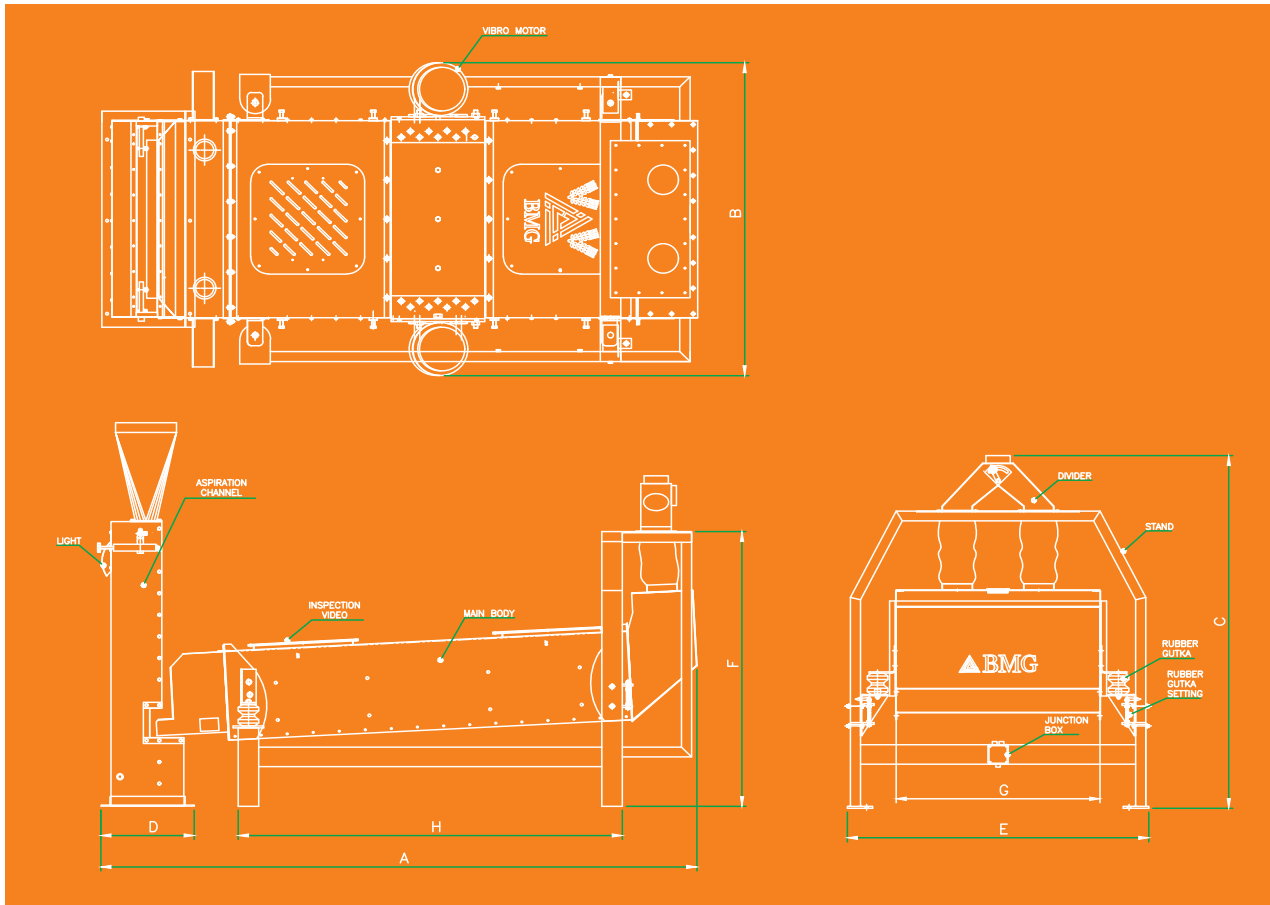

---

This unit is used for separating impurities from the grain such as coarse impurities, sand, chaff...Etc. The unit is coupled with an Aspiration Channel to remove dust and other light particles.

**Features :-**

- Can be used at different stages of cleaning by easily changing the sieves
- Removes coarse impurities like large kernels, string, straw.
- Its Vibrating action helps to remove and destroy soil dumps, mud balls
- Requires minimum maintenances
- Used in cereal processing plants like paddy, wheat, Ragi, maize...etc.

Model	Size	A	B	C	D	E	F	G	H
VCS 150	1500	2925	2094	1798	458	1980	1400	1500	1885
VCS 100	1000	2925	1594	1798	458	1480	1400	1000	1885
VCS 80	800	2925	1394	1798	458	1280	1400	800	1885

Capacities are determined according to Motor Power.  
 We reserve our right to change technical specification of machinery and equipment without any prior notice.
