Our mission to understand the unique requirement of each client and offer the most complete turnkey Project of Plant with Reasonable Price. and to Provide Management services, Expertise and Training and Continuously create new opportunities for growth in our strategic business and projects by implementing latest know-how in the current market scenario.

TO BE RECOGNIZED AS A LEADING TECHNOLOGY MANUFACTURER THROUGH THE SUPERIOR QUALITY OF OUR PRODUCTS, SERVICES AND PERSONNEL IN THE GRAIN AND FOOD INDUSTRIES.

Our Vision

YOUR SUCCESS IS OUR GOAL

Through partnering in a sustained productive relationship with BMG's customers.

BMG will help them achieve : -

- Greater safety, high capacity and environmental integrity.
- Improved Plant operating performance.
- Better machinery maintenance cost effectiveness.
- Longer useful life of plant and equipment.
- Employee training and work efficiency empowerment.

Comparison

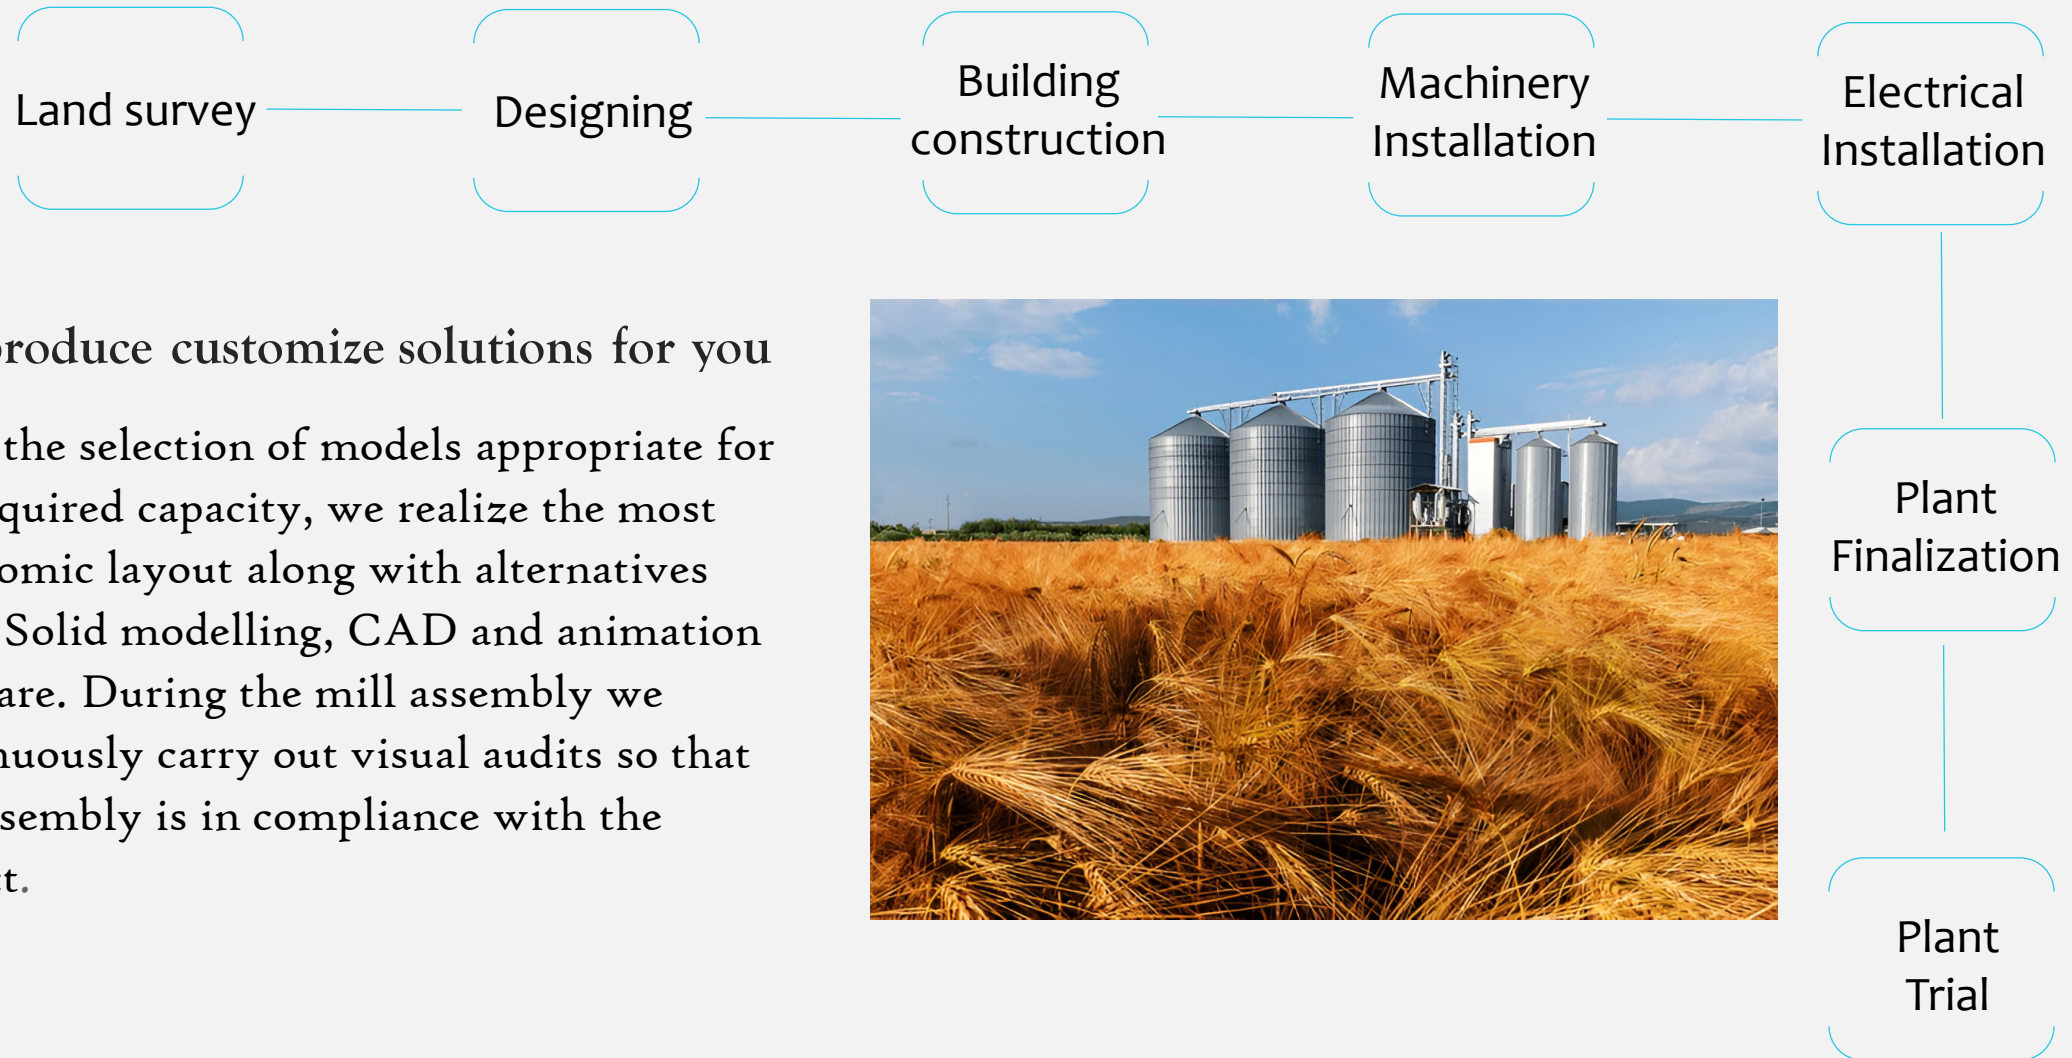

BMG INDIA

- This is an Indian company, so it can provide its services and spare parts quickly and easily.
- All our machinery is manufactured the help of modern laser, auto bend machine, C.N.C.,V.M.C. and to weld by the robotic welding machine to make more reliable product for our customers in mind the futuristic requirement.
- This is an unique mixer of turkey and Indian technology in Grain sector

OTHERS / FOREIGNER COMPANIES

- Foreigner companies cant not provide its service and spare parts quickly & easily be cause of have not established full body set-up in India.
- Foreign companies provide the same technology but are not able to provide full support in case of any risk due to distance between buyer and manufacturing unit.
- Other company's products are too mush costly than BMG's products.

PROCESS CHART

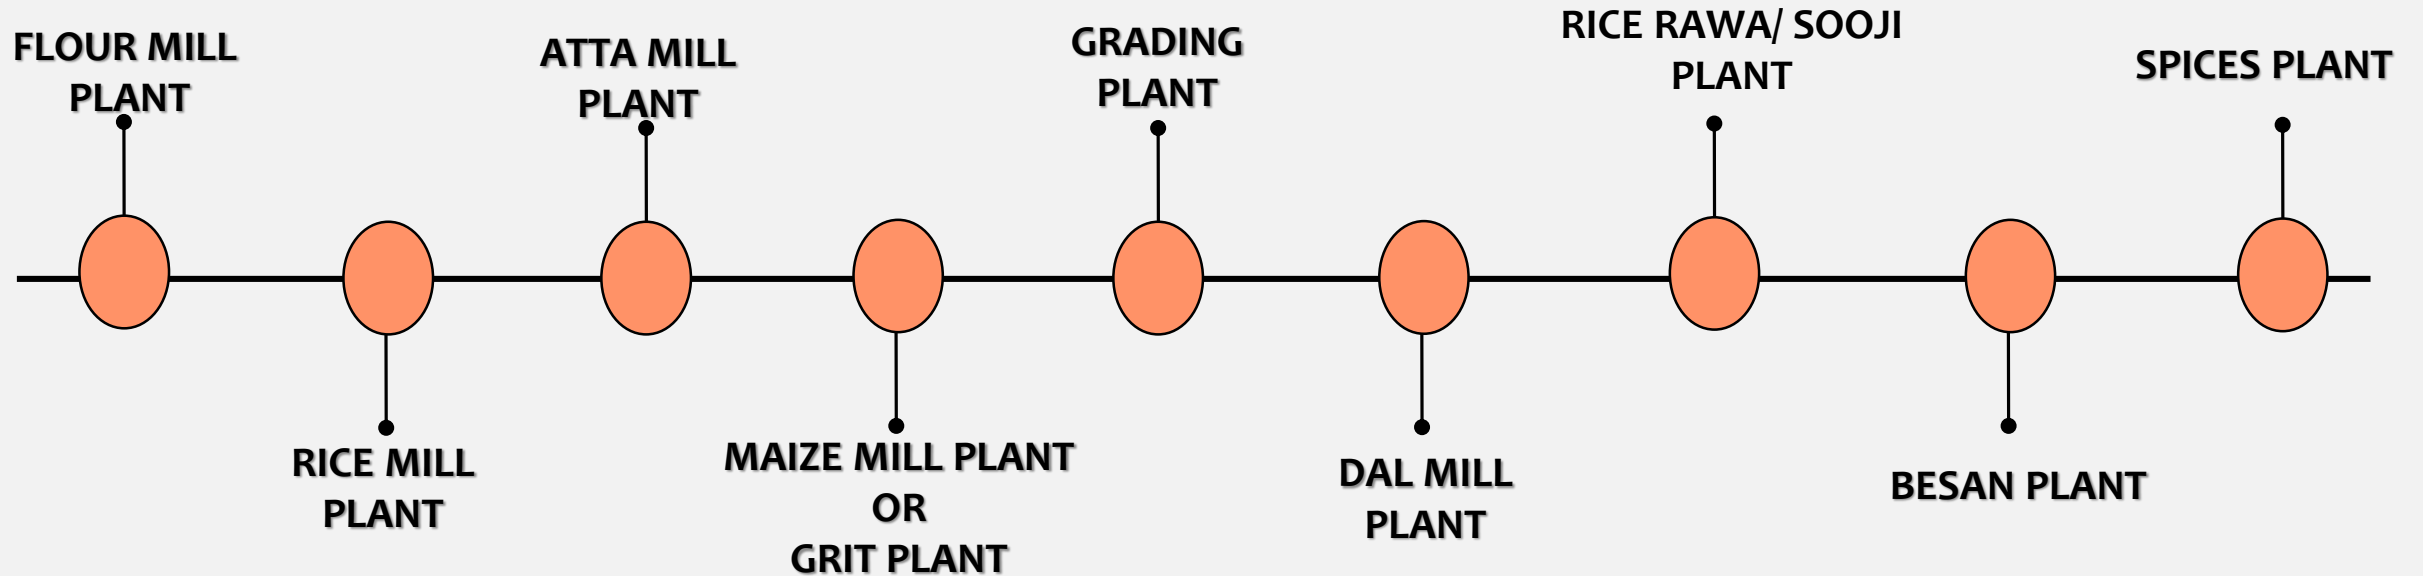

✓ We produce customize solutions for you

After the selection of models appropriate for the required capacity, we realize the most ergonomic layout along with alternatives using Solid modelling, CAD and animation software. During the mill assembly we continuously carry out visual audits so that the assembly is in compliance with the project.

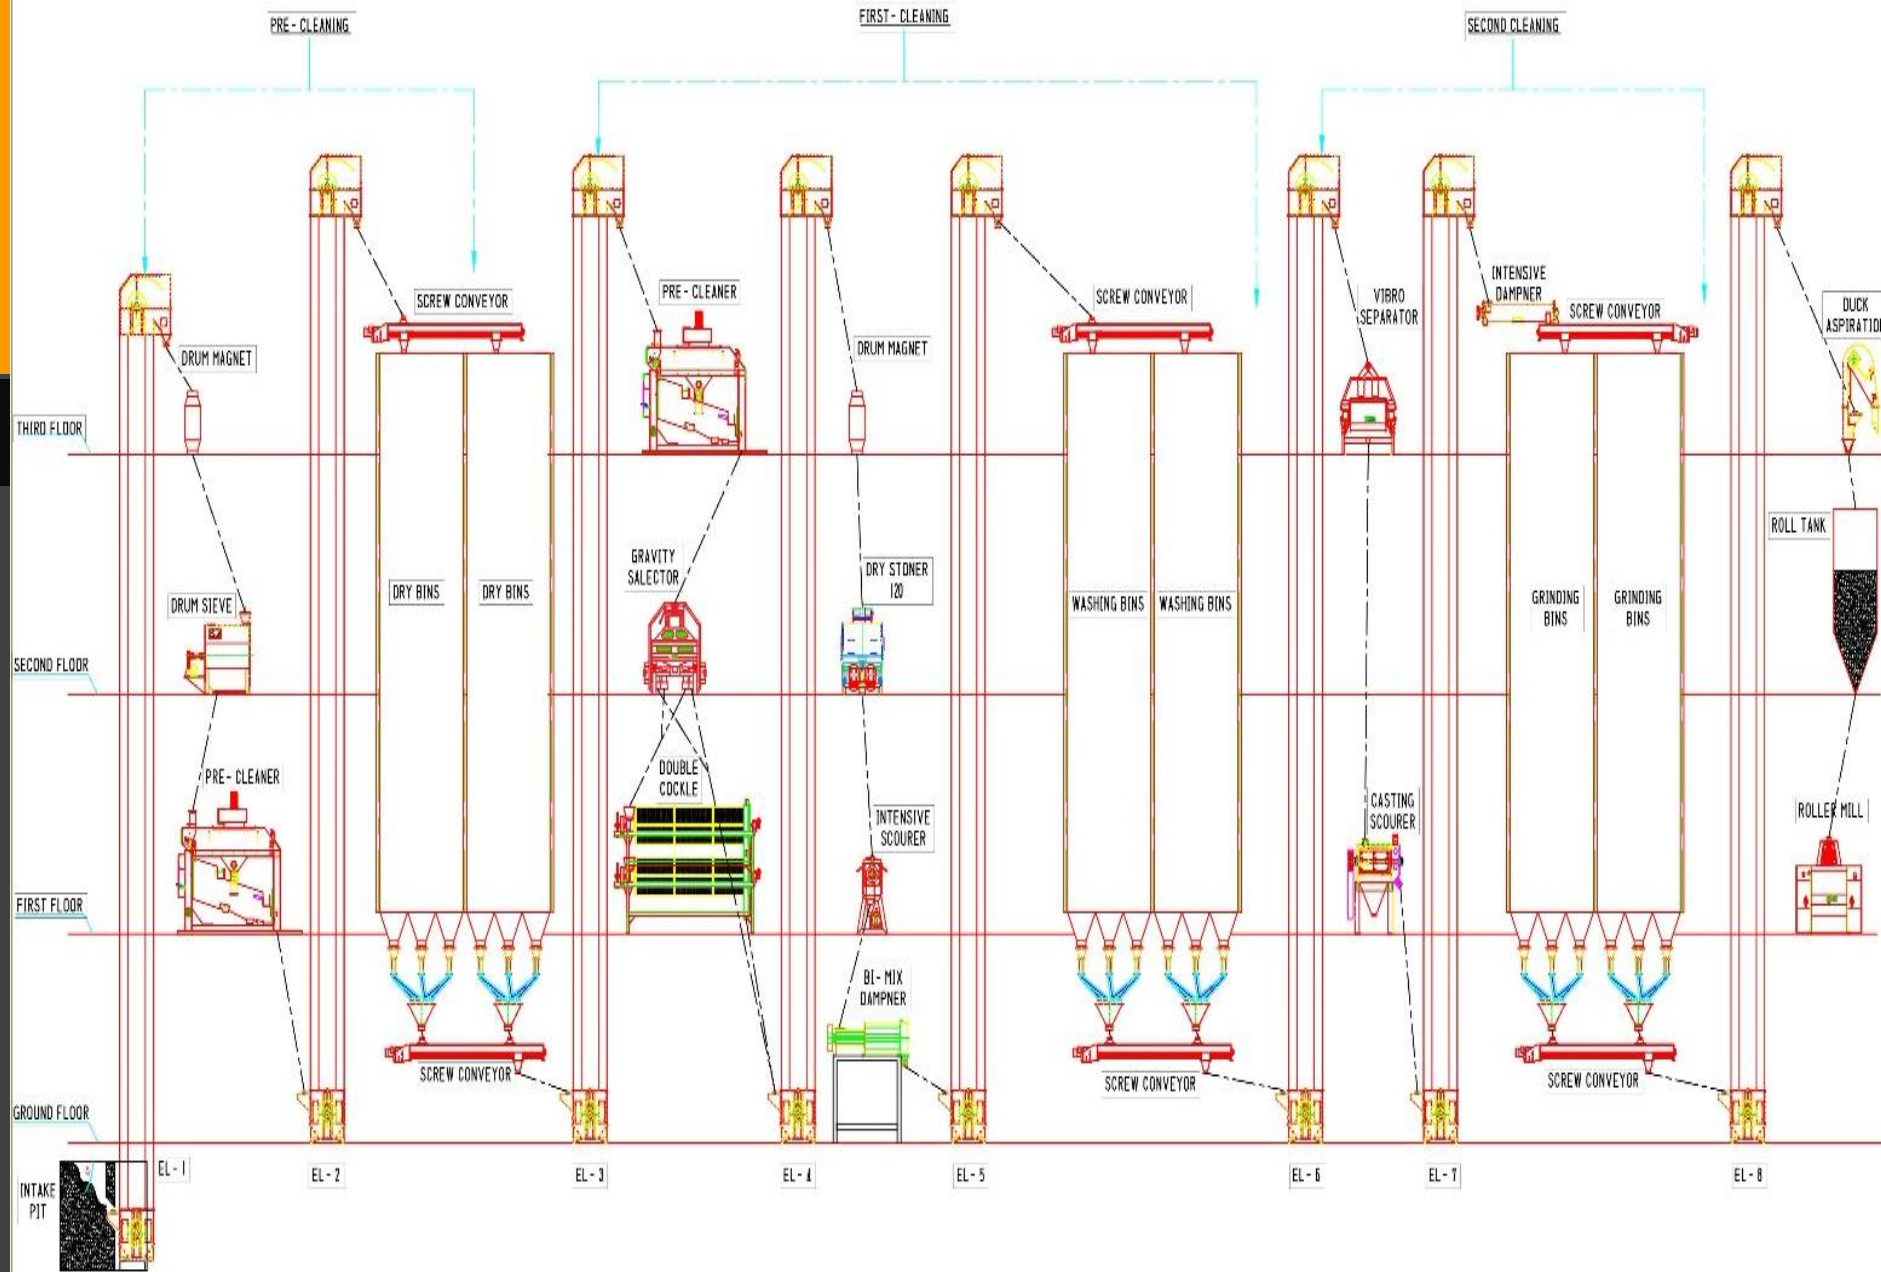

Machinery Production Sectors

DRAWING & DESIGNING FACULTY

BMG's DESIGNERS

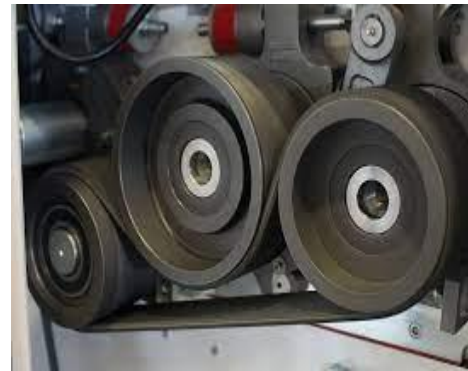

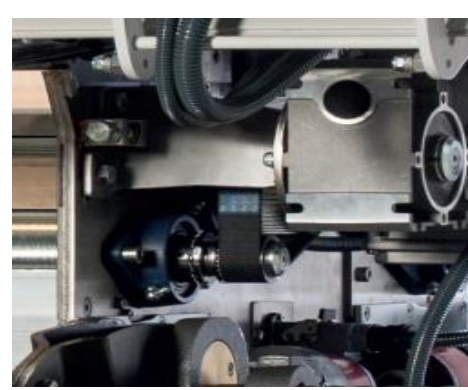

“A designer knows he has achieved perfection not when there is nothing left to add, but when there is nothing left to take away.”

MANUFACTURING UNIT

BMG's

We have a full-bodied infrastructure that helps in modernize functioning of our production operations, our infrastructure unit is appropriately segregated into manufacturing unit, quality testing unit, R&D division and sales section. All these units toil in dexterity to proffer the customers an unimpeachable range of machines, which is in concordance with the international standards apart from this, our manufacturing unit is operational with the latest machinery, these machine installed at our unit are moderately productive and ensure competence and quality of products.

WORK SHOP UNIT

BMG's

Our work shop is established in the manufacturing premises itself, in which the spare parts of the fabricated machineries are made by modern machine's help

PAINT-BOTH UNIT

BMG's

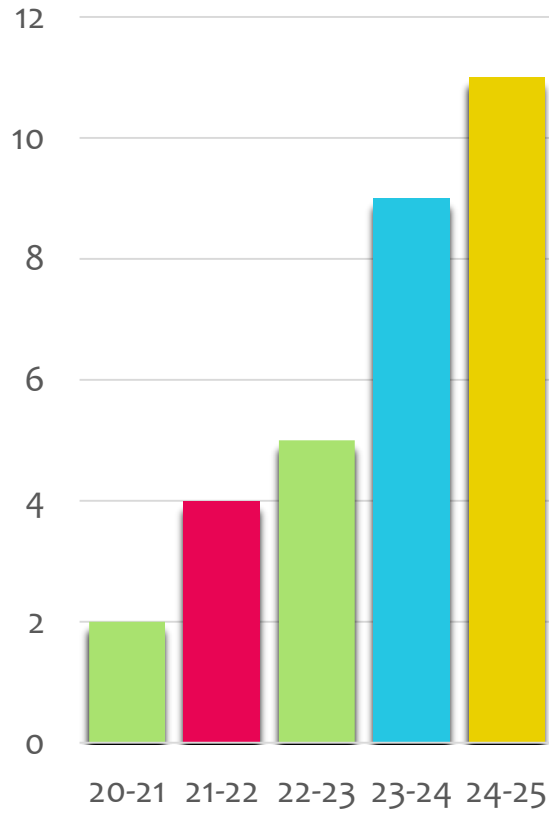

A paint unit is also kept in our premises where the machines manufactured are painted.
